**Team Of  
+250  
People**

**40.000  
Door  
Per Month**

Best Door started its interior wood door production journey in 2005 and has been making doors since then. It's a team effort which requires passion, creativity, engineering, innovation plus experience.

The goal was to be one of the leading manufacturers in Europe. As a result, we built a new 215,000-square-foot factory with a monthly capacity of 40,000 door slabs, 60,000 sets of door casings, and 850,000 moldings. We manufacture over 500 different types of doors in a variety of colors and styles, with a team of 250+ employees under the same roof.

We provide our customers the door they desire. Wood-veneered doors, lacquered doors, melamine or PVC veneered doors, laminate doors, molded panel doors and more.
